

Conveyorized skinning machine
for chicken parts

ESB 4434 GH

SKINNING

MAJA[®]

ESB GH

Technical details

Type	Cutting width mm	Width of machine mm	Depth with slide sheet mm	Depth with discharge belt mm	Height of machine mm	Electrical connection 3AC/50Hz/400V	Weight kg
ESB 4434 GH	434	849	1360	---	1242	0,75 kW	235
ESB 4434/1 GH	434	849	---	1757	1242	0,75 kW	250

The ESB 4434 GH (ESB 4434/1 GH with discharge conveyor belt) is best suited for the gentle skinning of different parts from chicken, without damaging the inside of the skin to be removed:

- Breast fillet (butterfly, without bones)
- Carcass (with bones)
- Thigh
- Leg (complete)

TECHNOLOGY FOR THE FUTURE

Equipment & features

- Infinitely variable adjustment of the skin thickness
- Pressure-roller with pressure wheels for bone-in parts
- Integration into a processing line
- ESB 4434/1 GH: with discharge conveyor belt

Options

- Air-filled pressure roller for the gentle processing of sensitive boneless chicken parts
- Additional discharge conveyor belt (standard equipment for ESB 4434/1 GH)
